(It looks odd doesn't it? Wm. oyd Garrison denouncing Charles Sumner!) He thought Sumner deserved the censure, and should not be withdrawn; it his (S's ideas prevailed, he (G.) saw no reason why the soldiers' monuments should not be torn down, and the records of the war burned. Julia Ward Howe made a characteristic exhibition of herself. She had signed Whittier's petition, and now came forward to oppose it. Edward L. Pierce searchingly reviewed the manner in bich the resolution of censure was rushed through the Legislature, passing the House by only one majority. The hearing closed with his remarks, but the efforts of the petitioners have not ceased. Wendell Phillips has written : strong letter in favor of the expunging. Though the Legislature has thus far refused to modif the doings of its predecessor, I feel quite sure that the resolution will be expunged from the records before the session is over. A very large number of members of the present Legisature were in the brdy which censured Sum ner : and though most of them undoubtedly regret their action, they are naturally reluctant to eat their own words so speedily. Popular sentiment is, I think, overwhelmingly in favor of the excision of the resolution. One of Ben. Butler's Tricks. One of the chief disadvantages under which Boutwell has labored in his raid on the U.S. Senate, is the well understood fact that Ben. Butler favors his aspirations. As I have recently written you, the hero of Dutch Gap is heartily hated by his fellow-citizens of Massachusetts, while he is also feared. He has recently perpe trated one of his characteristic "jobs" in polit-ical manipulation, which deserves a brief re-port. In the town of Methuen, Essex countyin Butler's Congressional District, Samue G. Sargent has served as Postmaster two or three years, giving universal satisfaction. He has been a school teacher all his life, is poor, nd enjoys the confidence and esteem of hi fellow-townsmen to a remarkable degree. No respectable person dreamed of his removal from the postoffice. But a certain fellow named Goss, who lives by politics, doing odd jobs for Gorry W. Cochrane, a trickster who divides his time between the engineering of a Baptist church, the boot and shoe business and schemes for political elevation, got a notion into his head that the Methuen postoffice would suit him. So, through Cochrane he engracehed him. So, through Cochrane, he approached Butler, who, possibly touched by a fellow-feel-<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> ing, for Goss has but one eye, and Ben only one and a balf, listened to his prayer, and had Sar-A few days since, while U. Has it ever occurred to you that the source of our sweetest joys is the source of our bitterest woes? In this court-room, instead of this blessed union there is death, and worse than death. Instead of this family comming-ling, we have here the father of one demanding the life of the other. Behold the contrast.
