

Acclaim Applications

**Michelle Weinstein, Senior Account Representative
Trix Systems**

May 22, 2014

Presentation to Jones, Bryant, and Weill LLC

What is *Acclaim*?

Desktop, browser and mobile solution for syncing real-time customer data with scalable, customized reports that power efficient, smart decisions.

Why *Acclaim*?

PROBLEM: DISTANCE

JBW experienced a 37% increase in remote projects and workspaces over the past 4 years.

NEED: ACCESSIBILITY

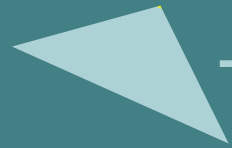

Acclaim powers remote work and communication, no matter where you work.

SOLUTION: COMMUNICATION

Acclaim makes centralized and consistent data and communication possible.

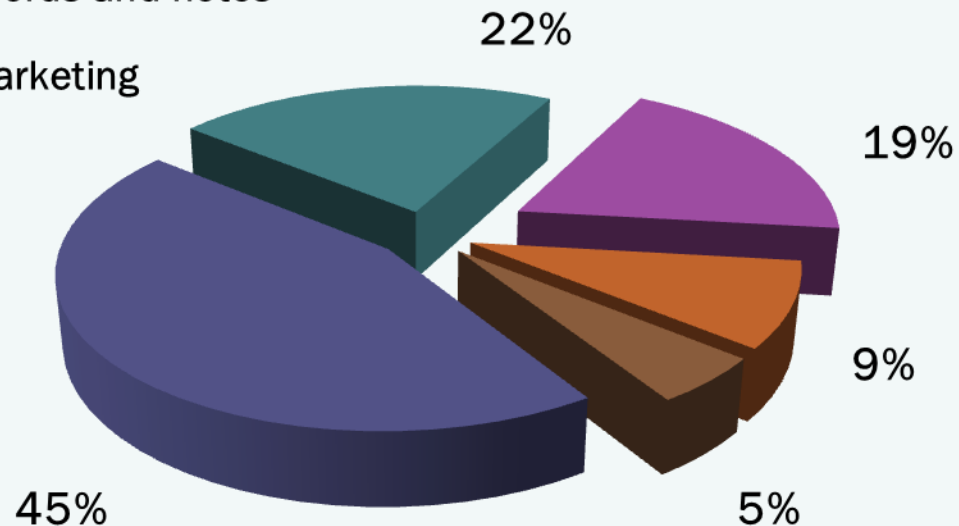

Why *Acclaim*?

- **Multi-platform**
- **Proven record of scalable progress**
- **Reliable central data source and servers**
- **Easy-to-use interface**
- **Consistent technical support**

Popular *Acclaim* Features: Q4 User Survey Results

- Real-time communciation
- Auto-update: contact records and notes
- Integration: database marketing
- Social media analytics
- Predictive analytics

Easy Implementation in 3 Steps

Export

- **8 weeks**
- Transfer data from existing systems to central Triox servers
- Identify data needs with JBW department managers

Setup

- **16 weeks**
- Clean data
- Set up custom report and communication channels
- User testing

Training

- **8 weeks**
- On-site training
- Webinar tutorials
- Ongoing Q&A

**Triox recommends an
8-month *Acclaim* implementation schedule
to ensure data integrity,
maintain ongoing JBW operations,
and provide superior training support.**
